

Graduates of the
**Stevens Point
High School**
1881 - 1940

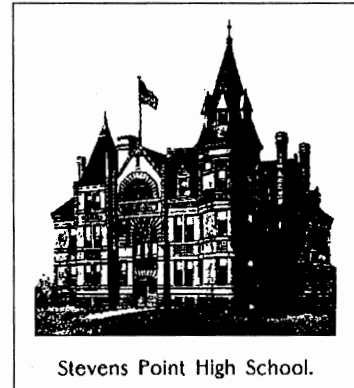

Compiled June, 2001
Dr. G. L. Miller

THROUGHOUT ITS HISTORY, the Stevens Point High School has occupied five major buildings, but has retained its identity as a school. It was organized in 1876, and construction began that year on a brick building located one lot east of the northeast corner of Clark and Church streets, presently the location of the public library parking lot. The first freshman class enrolled in the fall of 1877, and graduated as a class of nine seniors in 1881. That year and for many years thereafter, each graduating senior was expected to deliver a short oration at the commencement exercises; this custom continued until the size of the class made it unfeasable.

THE FIRST SCHOOL BUILDING was badly damaged by fire in February, 1892. By 1896 a new brick building was in use (figure), on the south side of Clark street, in the space east of what is at present the alternative high school. In the early 20's a more modern building was adjoined facing East Avenue, which was then called Emerson School. Emerson served as the city's high school until 1938, when P. J. Jacobs High School opened at the northeast corner of Michigan Avenue and Main Street.

Stevens Point High School.

THE SCHOOL HAVING OUTGROWN ITS SPACE AGAIN by 1970, a huge new building was planned for the city's north side, which opened in 1972 as Stevens Point Area Senior High School (SPASH). The P. J. Jacobs building then became a junior high, and the old Emerson School became the alternative high school.

THE SIZE OF THE GRADUATING CLASS grew slowly, exhibiting more or less linear growth for the first thirty years (see page 65). After about 1910 the growth became exponential, expanding from 28 in 1910 to more than ten times that number in 1940. (The class of 2000, including graduates from the alternative high school, numbered nearly 700.) Seating at commencement was a continual problem; tickets were rationed and no children were admitted, until the 1930's when commencements were held out of doors.

CONSIDERABLE CARE HAS BEEN TAKEN to see that these lists are accurate and complete, but perfect accuracy cannot be guaranteed. In a few cases, additional diplomas were awarded after remedial work had been completed; names of these persons are not available.
